

## Self-disclosure on RoHS-directive

Name und address: häwa GmbH  
Industriestr. 12  
88489 Wain  
Germany

The EU Directive **2011/65/EU** (RoHS 2) and its extension **2015/863/EU** (RoHS 3) restrict the use of certain hazardous substances in electrical and electronic equipment.

The substance restrictions currently affect the following substances:

1. *lead (Pb) – maximum permitted concentration 0.1 %*
2. *mercury (Hg) - maximum permitted concentration 0.1 %*
3. *cadmium (Cd) - maximum permitted concentration 0.01 %*
4. *hexavalent chromium - maximum permitted concentration 0.1 %*
5. *polybrominated biphenyls (PBB) - maximum permitted concentration 0.1 %*
6. *polybrominated diphenyl ethers (PBDE) - maximum permitted concentration 0.1 %*
7. *bis(2-ethylhexyl) phthalate (DEHP) - maximum permitted concentration 0.1 %*
8. *butyl benzyl phthalate (BBP) - maximum permitted concentration 0.1 %*
9. *dibutyl phthalate (DBP) - maximum permitted concentration 0.1 %*
10. *diisobutyl phthalate (DIBP) - maximum permitted concentration 0.1 %*

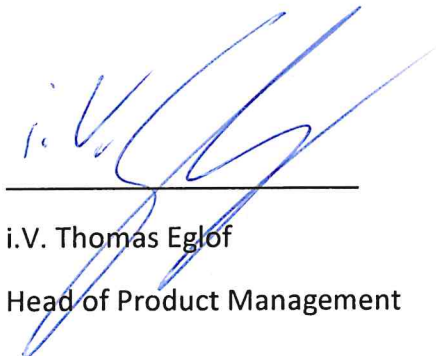

We currently have no evidence that suggests that our products are affected by substance restrictions under the current RoHS Directive.

häwa GmbH reserves the right to update and change this notice if it deems it necessary or appropriate.
